Connects to Your Workflow

Copy to your printers, Scan directly into your software, Scan to your email, Scan to other network PCs, even share your scanner with other network users.

More Scanning, Less Clicking

Nearly every feature or function of Nextimage software has been designed to make the scanner and user more productive – Less searching for the right settings, less adjustment to get the right quality, and less waiting to view results.

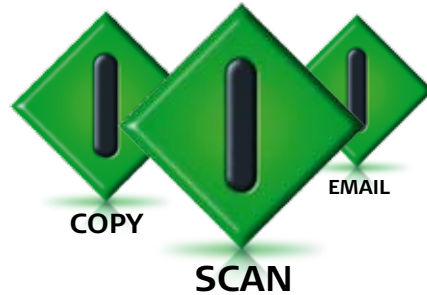

Get a Better Image

Nextimage software delivers a complete set of tools to ensure image quality for both archiving and printing. Never before has it been so easy to get professional results – with minimal adjustment.
