Garment Pattern Cutter

NEW

# CE5000-120AP

*Transform your pattern design work flow with the CE5000-120AP*

Enabling easy switching between plotting and cutting operations

Front loading for easy loading of heavy roll media

- ♣ Designed for ease of operation
- ♣ Reliable long-length output
- ♥ Fulfilled functions for Garment Pattern Cutter
- ♦ Superior price / performance

Taking full advantage of its experience and technologies in cutting plotter systems, Graphtec has created a new cutting plotter for garment pattern making with the apparel CAD system.

In addition to its suite of sophisticated features, the Cutting plotter is designed for easy of operation.

The CE5000-120AP cutting plotter helps turn garment designs into patterns both rapidly and accurately.

The CE5000-120AP is ideal for big companies, medium to small businesses, and SOHO.

It promises great potential as an aid in the apparel industry.
